

## Training and Support

Help and advice when  
you need it

CITB-ConstructionSkills is working in partnership with CIC and CITB(NI)  
as the Sector Skills Council for Construction.

The benefits available to you

## What is it?

Imagine having a personal training consultant to help you identify all the training needs of your firm. CITB-ConstructionSkills have more than 100 Training Advisers across the country whose job it is to do just that. They can spot where a workforce has 'skills gaps' and assist in putting together suitable training plans to help fill them. And, of course, they can point you towards the right grants to help you pay for the training.

### How will I benefit as an employer?

Our Training Advisers will help you make sure your workers have all the skills they need to keep your business competitive, efficient and safe.

Whether in person or over the phone, we will work with you to assess where your workforce needs training, and what's best for each of your employees. We can also help you put together a Training Plan for the whole firm.

Properly trained employees are safer, work faster, and make fewer mistakes. They are also more motivated, and are much more likely to stay with you. Any new skills they pick up will also give you the opportunity to bring in a wider variety of work.

### How will my staff benefit?

Your staff will become formally trained in their field, gaining qualifications recognised throughout the industry. Together with a current Health and Safety Test pass, this will make them eligible for a CSCS card, helping them prove they are up to the job and giving them more career security.

### Where is it available?

We have a network of Area Offices throughout the country, all of which have a team of dedicated Training Advisers. Just call us and we can put you in touch.

### What support can I get?

Over 14,000 visits to construction employers are made by our team of Training Advisers each year. As well as helping to identify the possible training needs of your firm, they can also help you find suitable training providers.

### Where can I get more information?

Your local Area Office will be happy to help, or you can visit [www.citb-constructionskills.co.uk/](http://www.citb-constructionskills.co.uk/) support to find out more.

To find out more call  
your local Area Office.
