

DIARY DATES

ROTARY INTERNATIONAL CENTENARY 23rd FEBRUARY 2005

Connecting lives – affecting lives

Rotarians all around the world will celebrate a century of service to their communities on February 23rd 2005. The first Rotary Club was founded by Paul Harris in Chicago, USA on 23rd February 1905. Rotary expanded rapidly over the 20th Century, and played a major role in such historic events as the founding of the United Nations. As a volunteer organization with over 31,000 clubs in more than 165 countries, Rotary initiates humanitarian programs that address today's challenging issues, such as hunger, poverty, and illiteracy.

Rotary club members represent a cross-section of business and professional leaders worldwide. These 1.2 million men and women donate their expertise, time, and money to support local and international projects that help people in need and promote understanding among cultures.

Rotary's flagship programme is its effort to protect children against polio, with the goal of ending the disease throughout the world. Rotary is the leading private sector contributor and volunteer arm of the global effort to end polio.

In Great Britain and Ireland there are 60,000 members in 1830 clubs.

Key centennial events are listed below.

The President of Rotary International in Great Britain and Ireland Gordon McNally is available for interview to discuss the future direction of Rotary, the challenges it faces and it's relevance in modern society.
